During this year extensive alterations and additions have been made to enable us to cope with our largely increased business. Our business is now organized under the following Departments:

1. Flower and Vegetable Seeds.
2. Grain, Fodder, and Grass Seeds.
3. Nursery—Plants, Trees, etc.
4. Tools, Fertilizers, Bee Goods, Insecticides, Poultry Foods, etc.
5. Art Floral Department — Cut Flowers, Wreaths, Bouquets, etc.

The extent of the business has made it necessary to issue Sectional Catalogues, as follows:—

Flower and Vegetable Seeds, Manures, Grains
Fodder Plants, Tools, Sprays, Insecticides, etc.

Plants, Shrubs, Fruit Trees, Bulbs, etc.

Rose Catalogue—Pocket Edition.

Winter Sweet Peas.

Any of these Catalogues are available to our customers free of cost.

THE NURSERY.

Our Nursery is situated at Millswood Estate, facing the South Line, a few hundred yards south of the Goodwood Station.

Extensive Shadehouses and Glasshouses have been erected, and an up-to-date stock of Plants, Shrubs, Roses, etc., is available as described in this Catalogue.

The excellent situation, perfect arrangement, and splendid soil of the Nursery places us in the position of being able to supply exceptionally well-grown, hardy plants, which should give entire satisfaction to our customers.

A special feature is the growing of seedlings under ordinary open-air conditions. These are grown from the best strains available.

Situation of Nursery.—The Nursery is easily reached by either of the undermentioned routes:—

Goodwood Car—2nd Section; Victoria Street, three minutes west. **Look for Sign.**

Glenelg Train—Forestville, three minutes south.

Brighton Train—Goodwood, three minutes south;

Clarence Park, five minutes north-east.

South Line—Goodwood, three minutes south.

Hours of Business.—Monday to Friday, 7.30 a.m. to 5.30 p.m.; Saturday 7.30 to 12 noon. During these hours the Nursery is open for inspection and business.

Purchases.—Purchases can be made at Rundle Street, or Customers can make their own selection at the Nursery.

Orders and Correspondence.—It is particularly requested that all correspondence and orders be addressed: E. & W. Hackett, Ltd., Box 107 G.P.O., Adelaide.

Orders.—Special attention is paid and prompt dispatch given to all orders

Enquiries.—We are prepared at all times to answer promptly any enquiries that our customers may desire to make in reference to the cultivation of plants or any other matters pertaining to floriculture or horticulture. The best and most expert advice is available.

Terms.—All prices quoted are net cash. New customers are requested to forward cash with order, or to give a city reference.

Name and Address.—Customers are requested to see that all orders are accompanied by the full name and address of the sender, together with full particulars as to the route and method by which it is wished the goods should be sent.

Packing.—A feature of our business is the careful and excellent way in which all country and interstate orders are packed. Only the actual cost of packing is charged.

Naming.—Particular care is taken that all plants shall be true to name and carefully labelled.

Substitutes.—We endeavour at all times to execute orders in their entirety, but occasionally a line may be sold out and the addition of a few names that we may be allowed to substitute from will be of assistance.

Selection.—Where customers leave the selection to us, every endeavour will be made to give the very best varieties available.

Plants Not Listed.—Any plant required that is not listed by us we will do our utmost to procure.

Liability.—When goods are delivered to Railway, Steamer, or other carrier, our liability ceases. Great care is taken to supply everything **true to name**, but without warranty expressed or implied as to description, quality, productiveness, or any other matter connected with the goods sent.

Flower and Vegetable Seeds.—With the exception of Peas and Beans, these are forwarded post free to any part of the Commonwealth.

N.B.—This Catalogue revokes all previous prices, and all prices are subject to market fluctuations.

HARDY ORNAMENTAL TREES AND SHRUBS.

This section represents a great variety of plants suitable for almost any kind of horticultural ornamentation. The heights given are approximate to the ultimate growth, but vary according to soil and situation. They can all be kept within bounds by judicious pruning, which we recommend being done immediately after blooming. Certain varieties of Trees and Shrubs succeed only in the cooler districts, and these we have marked with an asterisk as a guide to our customers. We shall at all times be pleased to recommend varieties for any special purpose, and when large numbers are required we will make special offers.

Corporations, District Councils, Tree Planting Societies supplied at wholesale rates.

 N.B.—Prices quoted in this List are for moderate-sized plants. Large and selected plants can be supplied at an advance on these prices.

E. signifies Evergreen. D. signifies Deciduous.

[illegible]

Handsome, free-flowering shrubs, very hardy.

E.	<i>Acacia Baileyana</i> —Bright yellow, known as the "Cootamundra Wattle," silver leaved	15	1	0
E.	<i>cultriformis</i> —Orange	8	1	0
E.	<i>dealbata</i> (Silver Wattle)	20	1	0
E.	<i>decurrens</i> (Black Wattle)	20	1	0
E.	<i>discolor</i> (Sunshine Wattle)	15	1	0
E.	<i>elata</i> —Sulphur	20	1	0
E.	<i>linearis</i> —Light yellow	15	1	0
E.	<i>longifolia</i> —Canary yellow	10	1	0
E.	<i>lophantha</i> —Sulphur	15	1	0
E.	<i>mollissima</i> —Yellow	30	1	0
E.	<i>normalis</i> (Queen Wattle)	20	1	0
E.	<i>podalyriæfolia</i> (Queensland Sil- ver Wattle)	12	1	6
E.	<i>pruinosa</i> —Silvery foliage	15	1	0
E.	<i>pycnantha</i> (Golden Wattle)	15	1	0

And some other varieties. Very handsome shrubs, producing yellow and orange-coloured flowers early in Spring and Winter.

		Height in feet.	Price.
D.	*Acer campestre (English Maple)	30	2 0
D.	*Negundo argentea variegata — Handsome ornamental tree ..	15	3 6
D.	*Pseudo - Platanus (Sycamore ..	50	2 0
E.	Agathea cœlestis (Blue Marguerite)	2	1 0
E.	Ageratum Mexicanum —Blue	3	1 0
E.	Agonis flexuosa —White	20	1 6
D.	Aloysia citriodora (Lemon-scented Verbena)	6	1 6
D.	Amygdalus persica (Double-flower- ing Peach) — Double white, double crimson, double pink, each	12	2 0
E.	Aralia reticulata —Very handsome .	—	1 6
E.	*Sieboldti —Glossy, green, palmate leaves	6	1 6
	Very handsome shrubs, beautiful foliage.		
E.	Arbutus canariensis (Strawberry Tree), yellow fruit	12	2 0
E.	Unedo (Irish Strawberry Tree) .	18	2 0
	Handsome shrubs, with white flowers, resembling the Lily of the Valley, and bearing a pro- fusion of fruit.		
E.	Arduina bispinosa grandiflora (Cape Plum)—White, sweet- scented	6	1 6
E.	Arundo donax variegata aurea (Variegated Reed), golden, variegated, extra fine	6	1 6
E.	Arundo donax variegata , silver variegated	15	1 0
E.	Asparagus retrofractus arboreus ..	6	2 6
	A beautiful variety with sweet- scented white flowers and dense foliage.		
E.	*Aucuba japonica variegata	4 from	1/6
E.	*Azalea indica —Varieties	2	0
E.	Bambusa arundinacea (True Giant Bamboo)	40	7 6
E.	nigra (Black Bamboo)—Very or- namental; the stems become a dark shining black	20	2 6
	And other varieties, from		3 6
E.	Barleria cristata —Light mauve ..	2	1 6
E.	Bauhinia purpurea —Purple	12	1 6
E.	Bay Tree—See <i>Laurus nobilis</i>		
D.	Berberis communis (vulgaris) (Yel- low Barberry)	8	1 6
D.	communis purpurea	—	1 6
E.	Darwini —Produces a rich profu- sion of deep orange-coloured flowers	5	2 0
E.	Wilsonæ —Pale yellow, coral berries	5	2 0
D.	*Betula alba (Silver or White Birch)	20	2 0
E.	*Boronia megastigma —Copper co- lour, produces a profusion of beautifully scented flowers ..	3	2 6
E.	*pinnata —Magenta	2	2 6
E.	*elatior —Rose	3	2 0
E.	Bouvardias —A fine collection of all the best varieties		1 6

		Height in feet.	Price.
E.	Bougainvillea Cypheri —Mauve . . .	—	1 6
E.	glabra —Mauve	—	1 6
E.	„ Sanderiana —Magenta . . .	—	1 6
These are usually employed as climbers. We would also recom- mend that they be planted against a 6 or 8 ft. post. They will only require an occasional tie-in, and when the desired height is reached no more has to be done except a trimming in of long shoots after blooming, to give the plant a neat appear- ance, and they will form some of the prettiest objects in the garden and bloom without ceas- ing for many months. For other Bougainvilleas see Climbing Plants.			
E.	Brachychiton acerifolia (Flame Tree) Scarlet	20	1 6
E.	Browallia (Streptosolen) Jamesoni —Orange	6	1 6
E.	Brugmansia Knighti —White, very large trumpet-shaped flowers, very fragrant	8	1 6
E.	sanguinea —Red and orange . . .	4	2 0
E.	Buddleia madagascariensis —Orange	15	1 6
E.	variabilis Veitchi —Reddish violet	8	1 6
E.	*Buxus sempervirens —(Tree Box) .	8	1 6
E.	*argentea variegata	3	2 6
E.	Callistemon lanceolatus (Crimson Bottlebrush)—Very showy flow- ers, in spikes 4 or 5 in. long . .	—	1 6
E.	speciosum —Crimson	—	1 6
E.	Calodendron capense (Cape Chest- nut)—Pink	40	2 6
E.	*Camellias —We have a splendid stock of these in various co- lours from		3 6
E.	Camphora officinalis (Camphor Tree)	30	2 0
E.	Cantua dependens (Syn. Buxifolia) —Splendid carmine flowers, the size of a Bignonia	5	1 6
E.	dependens . alba —White, very handsome, flowering in Spring	5	2 0
D.	Capparis spinosa (Caper Tree)— White	3	1 6
E.	Carob Tree —(See <i>Ceratonia siliqua</i>)		
E.	*Carpentaria californica —White . .	6	2 6
E.	Cassia eremophylla —Yellow flow- ers, somewhat resembling a Boronia	5	1 6
E.	floribunda —Yellow	10	1 6
D.	*Castanea vesca (Spanish Chestnut)	40	2 0
E.	Casuarina quadrivalvis (Shea-oak)	40	1 0
E.	Kingston's Sheaoak (Bull-oak) .	30	1 0
E.	Ceanothus divaricatus (Bluebush)— Pale blue, rapid growing, blooming in Spring, very hand- some (see also Hedge Plants) . .	12	1 6
D.	*Cerasus (Double-flowering Cherry) —White, also pink	20	2 6
E.	*lauro-cerasus (English Laurel)— White	12	1 6
E.	Ceratonia siliqua (Carob Tree, or St. John's Bean)	30	1 6
Also see Hedge Plants.			

		Height in feet.	Price.
D.	Cercis Siliquastrum (Judas Tree) —Purplish-red	12	2 0

HARDY CLIMBING PLANTS.

For covering arbours, training up verandah posts, walls, and unsightly fences, these plants are indispensable. Several of the varieties are admirably adapted for training up posts in the shrubbery, and if a little care is bestowed upon them, will produce a most beautiful effect amongst other plants. We shall be pleased to recommend the most suitable for any special purpose.

E. signifies Evergreen.

D. signifies Deciduous.

Special quotations for large quan- tities.		

HERBACEOUS and BEDDING PLANTS (Perennial).

This section should be largely represented in every collection, comprising as it does some of the most brilliant and easily cultivated of all flowering plants. It also includes some beautiful foliage plants. A judicious selection will render a garden gay with flowers and foliage the whole year round.

N.B.—When large numbers of Bedding Plants are required we will make Special Quotations.

aurea variegata (Farfugium grande)	2 6
Monstera deliciosa from Shining dark green, perforated leaves and large, boat-shaped flowers. It also produces a most delicious fruit.	3 6
Musa ensete	3 6
*zebrina	2 6
Ophiopogon jaburan variegata—Deep violet- blue, freely produced in dense spikes, 1/6 to	2 6
Pelargoniums—(See Special List)	
Palms—In great variety (see Special List).	
Pandanus utilis (Screw Pine)—Fountain-like, handsome, drooping foliage, green leaves, with small red spines along the edge 2/6 to	5 0
*Veitchi—Very handsome; the leaves are profusely variegated with white 3/6 to	5 0
Panicum variegatum—Prettily marked grass, suitable for baskets	1 6
Poinsettia pulcherrima—Very handsome large scarlet bracts	1 6
Phalangium albo lineare elegans—Elegant foliage plant; fine for basket culture	1 6
Primula malacoides	1 0
obconica gigantea	1 6
Plants in Winter.	
Very useful plants for the Greenhouse.	
Ruellia McKoyana—Ornamental foliage, rosy violet flowers	1 6
Stephanotis floribunda (Elvaston variety)—A beautiful climber, handsome dark green leaves and fragrant pure white blossoms, produced in profusion ..	2 6
Strelitzia reginæ—Orange and blue	5 0
Toxicophlæa spectabilis—Handsome corymbs of white flowers, with a sweet per- fume	1 6
Tradescantia zebrina—Suitable for rockeries or hanging baskets	1 0

FERNS and LYCOPODS.

We shall be pleased to recommend the most suitable varieties for Ferneries, Rockeries, Shadehouses, &c., on application.

The Prices of all Tree Ferns and other Ferns vary according to size.

Specimen Plants of some Ferns can be supplied.

Those marked with an asterisk (*) are Hardy Ferns, suitable for Verandahs, Rooms, Shadehouses, &c.

Adiantum (Maidenhair Fern)—

*capillus veneris—A pretty and useful
species 1 0

*cuneatum grandiceps (Tassel Fern)—At-
tractive, well adapted for growing in
baskets 1 6

*elegans—Hardy, the most useful Maiden-
hair Fern for cutting; produces long
stalks 1/6 to 7 6

*gracillimum—Charming, of light and
graceful appearance 1/6 to 2 6

Price
s. d.**Adiantum (cont.)**

* nebulosum (cloud-like)—A very fine form of <i>A. Gracillimum</i> , more upright, and in every way a better Fern as a pot plant or for cutting	1/6 to	3	6
* gracillimum cristata —Free growing	1/6 to	3	6
Lathomi —Large fronds of light green,	1/6 to	2	6
scutum —Bold and large handsome fronds	1/6 to	2	6
Veitchi —Young fronds, crimson, distinct		2	6
*Alsophila (Tree Fern)			
* Cooperi —Very handsome	1/6 to	7	6
* excelsa —Larger than <i>Cooperi</i>	1/6 to	7	6
* Aspidium aculeatum (Buckler or Shield Fern)—Used for table decoration, shadehouse, &c.	1/6 to	3	6
* Asplenium bulbiferum —A hardy strong-growing species; very useful for table decoration	1/6 to	3	6
* bulbiferum diversifolium —A very handsome species		1	6
* lucidum —A noble species, with shining green fronds		2	6
* nidus (The Bird's Nest Fern)—Extremely hardy, with long, broad, undivided shining green fronds, of a leathery texture, rising symmetrically from a single succulent crown, leaving quite a hollow centre at the base	1/6 to	5	0
* Cyrtomium falcatum (Ivy Fern, King Fern)—Foliage thick, bright, glossy green, very hardy; suitable for dwelling-house or verandah	1/6 to	3	6
* Rochfordi	1/6 to	2	6
* Davallia canariensis (Hare's Foot Fern)—One of the most useful species of this very large genus	2/6 to	3	6
fijiensis —A beautiful species	2/6 to	5	0
fijiensis plumosa —Very beautiful, makes a splendid specimen	3/6 to	5	0
lucida —Vigorous grower		2	6
*Dicksonia antarctica (Tree Fern). Prices on application			
* Dicksonia davallioides —A dwarf growing variety with large fronds, minutely subdivided, very hardy		1	6
Goniophlebium subauriculatum —For hanging baskets		2	6
* species —A most useful hardy Fern, also suitable for hanging baskets		2	6
*Lycopodium . See <i>Selaginellas</i> .			
* Lygodium scandens (Climbing Fern)—Pretty		2	6
Microlepia strigosa		1	6
* Nephrolepis cordata compacta —A very useful variety of this well-known hardy Fern, for verandahs, baskets, &c.		1	6
magnifica —Very graceful, resembles <i>Amerpohli</i> , but is a stronger and more upright grower		1	6
Piersoni elegantissima —A pretty variety, with long pendulous fronds; suitable for hanging baskets, &c.		1	6
todeæoides —Splendid tripinnate fronds, with their second leaflets inclining or twisting a little out of the surface of the frond		1	6

	Price	s.	d.
* <i>Phlebodium aureum</i> —Very handsome	2	6	
* <i>Platycerium alcicorne</i> (Elk's Horn) 2/6 to	7	6	
* <i>grande</i> (Stag's Horn)—Makes a grand specimen	2/6, 7/6 and upwards		
These Ferns are usually grown on boards or blocks of cork, and are of easy culture, in shadehouse and under verandahs.			
* <i>Polypodium aureum</i> (<i>Phlebodium aureum</i>)—Fine specimen	1/6 to	2	6
<i>Knightoe</i>		3	6
* <i>Polystichum capense</i> — Extremely hardy, makes a large specimen		2	6
<i>triangulare</i>		1	6
* <i>Pteris cretica alba lineata</i> —White and green, variegated; thrives in rooms	1/6 to	2	6
* <i>tremula</i> —A pretty Fern of free growth, suitable for house decoration, 1/6 to		2	6
* <i>Wimsetti</i> —Beautifully crested, free; fine for fern pans and house use ..	1/6 to	2	6
<i>Selaginella amoena</i> —Very graceful ..	1/6 to	2	6
* <i>denticulata</i> —Trailing		1	6
<i>Emiliana</i> —Dwarf, very pretty		1	6
<i>Kraussiana aurea</i> —Golden variety, trailing		1	6
Very suitable for growing in pans. And Other Varieties.			

PALMS and CYCADS.

N.B.—The prices of all Palms vary according to size and age. All our Palms are Pot grown.

N.B.—Those marked (*) are suitable for planting outdoors.

* <i>Brahea edulis</i> (The Guadeloupe Island Palm)—Hardy. It has very large fan-shaped bright green leaves ..	2/6 to	7	6
* <i>Roezli</i> (Blue Palm)—Very ornamental Fan Palm; distinct	2/6 to	7	6
* <i>filamentosa</i> (Cotton Palm)	2/6 to	7	6
* <i>Chamærops excelsa</i> (Windmill Palm)—One of the hardiest, worthy of extensive cultivation; 15 to 20 ft.	2/6 to	5	0
* <i>humilis</i> —Fan-shaped leaves, of dwarf habit, splendid for lawns and small gardens	2/6 to	5	0
* <i>Cocos plumosa</i> (feathery)—Stem straight columnar; grows to a height of 40 feet; a highly ornamental tree, with long graceful plume-like leaves; hardy, of quick growth	2/6 to	7	6
<i>Weddelliana</i> —The most elegant of all the smaller Palms; graceful table plant	5/- to	10	6
* <i>Cocos Yatay</i> —A handsome glaucous-leaved species, distinct and striking habit; of quick growth	2/6 to	10	6
* <i>Corypha australis</i> (<i>Livistonia</i>) — Graceful Fan-Palm; very useful and hardy	2/6 to	5	0
* <i>Cotton Palms</i>	2/6 to	7	6
* <i>Cycas revoluta</i> (The "Sago Palm" of Japan)—Cylindrical stems, terminating in a crown of handsome feather-shaped leaves of thick leathery texture; very elegant	from	7	6
* <i>Diplothemium maritimum</i> (syn. <i>Cocos Yatay</i>)	2/6 to	10	6

Jubæa spectabilis**—A noble out-door Palm, with an immense, tall, straight, thick stem 3/6 to 7 6**Kentia Belmoreana**—Very elegant and graceful, largely used for table and house decoration, 15 feet 2/6 to 20 0**Forsteriana**—Taller than above, with broader leaves, longer stems, makes a large specimen in a shorter time, of a truly majestic appearance, the most popular Palm for table and other decorations; elegant, 15 ft. 2/6 to 40/Latania borbonica**—Large, fan-shaped; one of the best for decoration . . . 2/6 upwards***Phoenix reclinata**—One of the hardiest, with dark green feathery foliage, very handsome on lawns 2/6 to 7 6***canariensis** (The Canary Island Palm)—A noble variety of the Date Palm, very handsome, hardy, rapid grower, makes beautiful specimens; dark-green pinnate leaves, lance-shaped, 6 to 12 feet 2/6 to 7 6***dactylifera** (Date Palm)—Produces the Dates of commerce 2/6 to 7 6**Roebelini**—One of the most beautiful Palms in cultivation for table and indoor decoration 7/6 to 15 0***tenuis** (see canariensis)***Pritchardia filifera** (Cotton Palm) . . 2/6 to 7 6**Rhapis humilis**—A delicate and graceful little Palm, from China and Japan, suitable for house decoration from 7 6***Washingtonia filifera** (Cotton Palm) 2/6 to 7 6***robusta** (Cotton Palm)—Very distinct from the preceding; the leaves are much greener and the filaments not so numerous; an exceedingly rapid grower, with thinner trunk; although it has an immense crown of leaves it withstands strong winds without injury 2/6 to 7 6

These are two of the hardiest of the Palms, universally admired in gardens.

AQUATIC PLANTS.**For Aquariums, &c.**

For furnishing ponds or lakes, in or out of doors, in variety. Price on application.

BEGONIAS.

(See Greenhouse Plants).

CANNAS.

Gladiolus-flowered.

9/ dozen; 1/ each.

Andenken von G. H. Krelage—Dark foliage, clear crimson scarlet flowers.**Buddha**—Green foliage, pure clear yellow flowers. 1s.

- Comte de Bouchard—Green foliage, yellow-spotted crimson flowers.
- Comte de Sach—Green foliage, vivid crimson flowers
- Emile Lorenz—Green foliage, yellow, centre blotched crimson.
- Fabricant Berg—Dark foliage, golden yellow flowers
- Frau Anna Pfitzer—Dark foliage, crimson flowers
- Frau Marie Nagel—Green foliage, pale yellow flowers
- Frau Rumelin—Green foliage, red flowers
- Fred Benary—Green foliage, orange, scarlet splashed yellow flowers
- Gouverneur von Zimmerer—Dark foliage, bright orange and red flowers
- Hungaria—Green foliage, pink with satin sheen flowers
- James H. Veitch—Dark foliage, crimson flowers
- James Wigan—Green foliage, scarlet, yellow centre flowers
- King Humbert (The Gold Medal Canna)—Bronze foliage, dark crimson flowers.
- Komm Paul Bauer
- Lady P. Laurence—Green foliage, tangerine flowers
- Madame Crozy—Green foliage, crimson, edged gold flowers
- Mrs. Kate Gray—Green foliage, orange-red flowers.
- Oberhofgartner Krauss—Dark foliage, crimson-scarlet flowers
- Panache—Green foliage, crimson flowers
- Pennsylvania—Green foliage, crimson scarlet flowers.
- Queen Charlotte—Green foliage, pomegranate-red, broad yellow margin flowers
- Ruhm von Stuttgart—Green foliage, orange-scarlet, yellow centre flowers
- Semuer Sennier—Green foliage, orange-red, veined crimson flowers
- Solfatara—Green foliage, bright amber flowers
- Senateur Viger—Dark foliage, orange scarlet
- Stadgartner Brennemann—Green foliage, deep orange flowers
- Stadrath Heidenreich—Green foliage, brick-red flowers

CANNAS.

Orchid-flowered.

1/ each; 9/ doz. (except where priced).

- Alemannia—Green foliage, scarlet, with broad golden yellow border flowers
- Atalanta—Green foliage, deep orange-carmine
- Austria—Green foliage, canary yellow, slightly spotted bronze flowers
- Charles Naudin—Green foliage, salmon-red flowers
- Edouard Andre—Dark foliage, bright fiery red with orange-yellow spots
- La France—Dark foliage, brilliant orange-red
- Parthenope—Green foliage, dark orange-yellow
- Phœbe—Green foliage, sulphur yellow, spotted carmine
- Professor Treub—Dark foliage, orange-red, splashed yellow
- Roma—Green foliage, dark orange, bordered gold
- Suevia—Green foliage, pure canary yellow flowers
- Wilhelm Beck—Green foliage, sulphur-yellow, pencilled scarlet
- Wyoming—Dark foliage, extra large old gold, pencilled vermillion.

ACCLIMATIZED FLOWERING BULBS, TUBERS, ROOTS, &c.

Postage Extra on all Bulbs.

Achimenes—Fine Pot Plants for any ordinary greenhouse. Their beautiful blooms, in the richest and brightest colours, often nearly 2 inches across, are produced in great profusion. Plants in pots, 1s. 6d.

Agapanthus umbellatus (African Lily)—Blue, 1/ ea.
Maximus albus—White. 1s. each.

Amaryllis belladonna (Belladonna Lily)—Deep rose; fragrant. 1/ each.

Amaryllis belladonna blanda—White, 1s. 6d. each.

Amaryllis formosissima (*Sprekelia formosissima*), Jacobean Lily—Grand dark scarlet; a quaintly shaped beautiful flower, 1s. 6d. each in pots.

Amaryllis Johnsoni—Scarlet, with pure white stripes; very fine, 1s. 6d. to 2s. 6d. in pots.

Amaryllis purpurea (*Vallota purpurea*)—Richest crimson. 1s. 6d. each in pots.

Amaryllis hybrid varieties—From 3s. 6d. each, in pots.

ANEMONES.

A highly ornamental class of easily cultivated hardy plants, with large flowers of various shades of colour, such as scarlet, rose, blue, and purple. The foliage is elegantly cut, and the habit of growth is neat and compact. They are well adapted for beds, edgings, and masses. The Anemone does best on a light, rich soil, with a good dressing of decayed manure.

Double, choice, named—In 10 varieties. 2s. 6d. doz.

Double, finest mixed—2/6 doz.

Single, finest—In blue, white, and scarlet. 2/6 doz.

Single, finest mixed—Very showy and beautiful. 2s. 6d. doz.

St. Brigid—Semi-double, very fine. 2s. 6d. doz.

Arum Lily (*Calla æthiopica*), Lily of the Nile—White. 1s. each.

Dracunculus (Dragon Lily). 1s. each.

sanctum (Black Lily). 1s. each.

Babiana, mixed. 1/6 doz.

Begonia, tuberous rooted, double. 1s. 6d. each.

Single, 1s. 6d. each, in pots.

Calla æthiopica (The White Lily of the Nile)—Has large white lily flowers and beautiful green leaves. 1s. each.

Elliottiana (The Yellow Arum)—Very rich and beautiful. 1s. 6d. each in pots.

Convallaria majalis (White Lily of the Valley)—An exceedingly beautiful and universally admired fragrant little flower. 1s. each, 10s. doz. in pots.

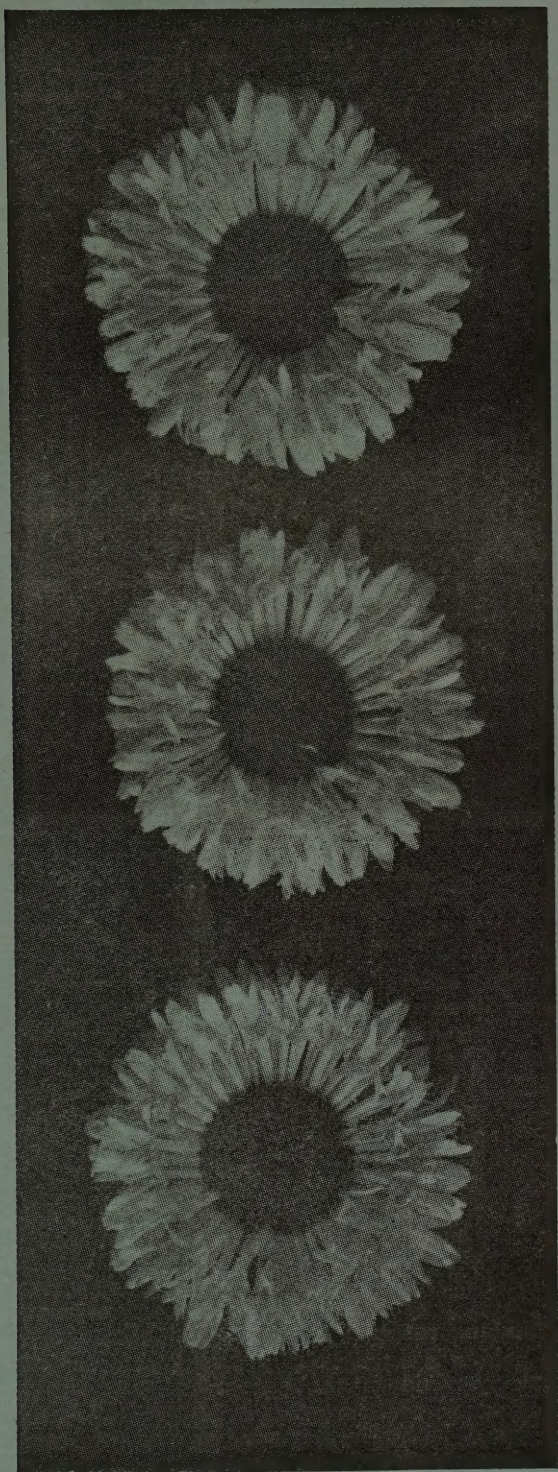

Cannas (see Special List)

Crocus—One of the earliest Spring flowers. Prefers a light soil. Should be planted tolerably deep in the ground. **White, blue, yellow, striped purple**. 3d. each; 2s. 6d. doz. Obtainable in March and April.

Cyclamen persicum giganteum—One of the most valuable of pot plants. Several shades of colour. 1s. 6d. to 2s. 6d. each in pots.

Daffodils—A fine collection. From 1s. 6d. per doz.

NOVELTIES AND SPECIALTIES.

NEW SHASTA DAISY, "Karkoo Ruffle."

A lovely new Shasta Daisy with tubular petals which are beautifully ruffled and frilled at the ends, hence the name given the variety.

The petals are of snowy whiteness, and the centre of the flower a brilliant gold.

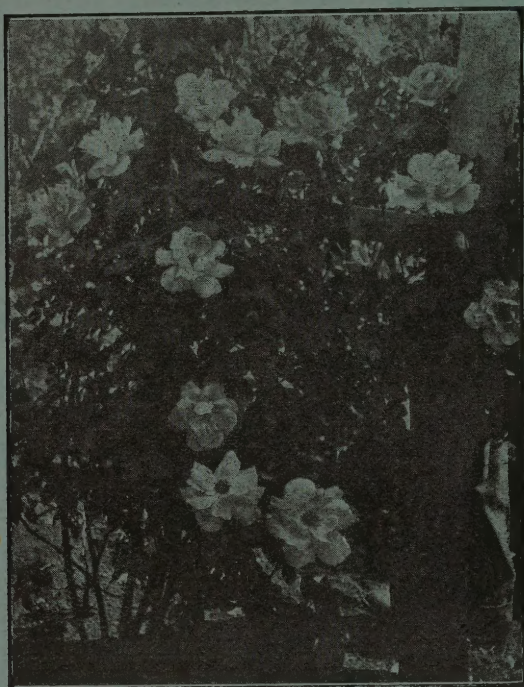

The plant is dwarf and compact, but the flowers are borne on long stiff stems.

It is a very hardy, strong-growing variety and flowers freely.

If the flowers are cut young they will last for fully two weeks in water.

Our illustration gives a good idea of this lovely Daisy.

Plants available from July. 1/6 each.

NEW CLIMBING ROSE, "Nora Cuninghame."

We have secured the sole rights for this grand climbing Rose.

It was raised by the same grower as the beautiful climber "Blackboy" (Mr. Alister Clark).

This Rose has been thoroughly tested at "Glenara" for some years, and we have also grown it at our nursery, and we have no hesitation in declaring it to be one of the loveliest climbing pink decorative roses yet sent out.

It is very suitable for tripods, pillars, or trellises, having a splendid bright green foliage, which is mildew proof.

It flowers freely in the autumn as well as the spring, which is not the case with many of our best climbing roses.

The colour is a pure pink in the spring, becoming particularly vivid in the autumn.

The flowers are very large, of decorative semi-double form, with a lighter zone around the stamens.

This Rose is a very vigorous grower. Price, 3/6 each.

A WONDERFUL NEW ROSE, "Los Angeles."

This Rose has caused quite a sensation amongst all rose lovers. It has received remarkable awards, winning the Gold Cup as the best all-round Rose at the Panama Exposition, and it also won the highest honours in France.

The colour is a luminous salmon pink, shaded with translucent gold. It has a sweet perfume, and it is a strong healthy grower, having healthy foliage.

In our opinion it is a lovelier rose than either Lyon Rose or Madame Edouard Heriot, which it somewhat resembles, and it is a better grower.

The flowers are on long, strong stems, and are held in an erect manner. The flowers are full, very large, and perfectly formed, the petals being large and of splendid texture.

We were only able to send out a few plants last season, but wherever this Rose was grown it gave wonderful results, and we have received several exceptionally high references to it, some growers stating that it is the most beautiful Rose they have ever seen.

This year we have a fine stock of well-grown, healthy plants available.

Price, 3/6 each.

CLIMBING ROSE, "Queen of Hearts."

A lovely variety sent out as a novelty by us last season.

A STRIKING NOVELTY. The Golden Glory Creeper, "Thunbergia Gibsonii."

A new perennial creeper growing about 4 ft. high, with the most glorious of orange flowers.

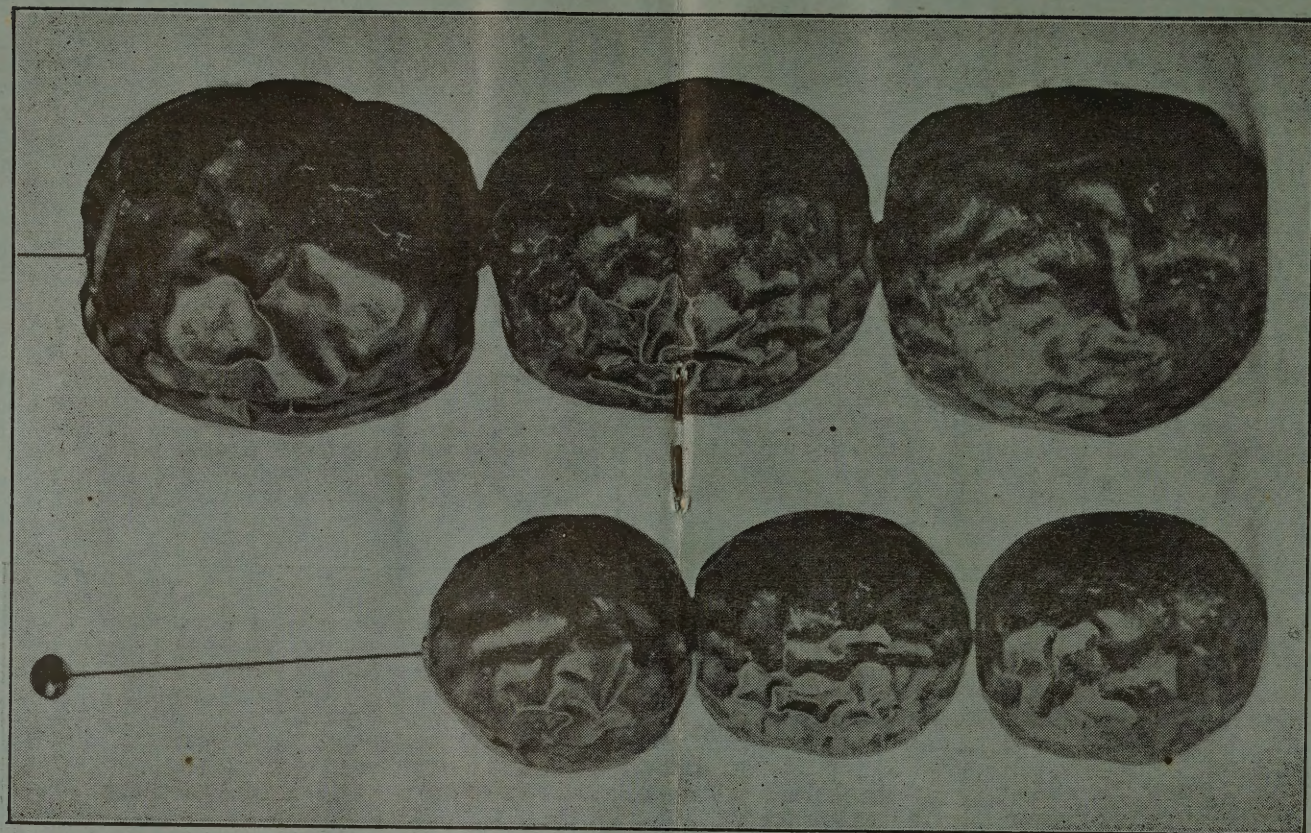

The flowers which are freely produced are of the most intense orange colour, borne on long stems, and last well when cut. Cut in a young state they will last for at least a week in water. They are delightful for posies and buttonholes.

The foliage of the plants is a lively green, and makes a splendid background to the gorgeous flowers.

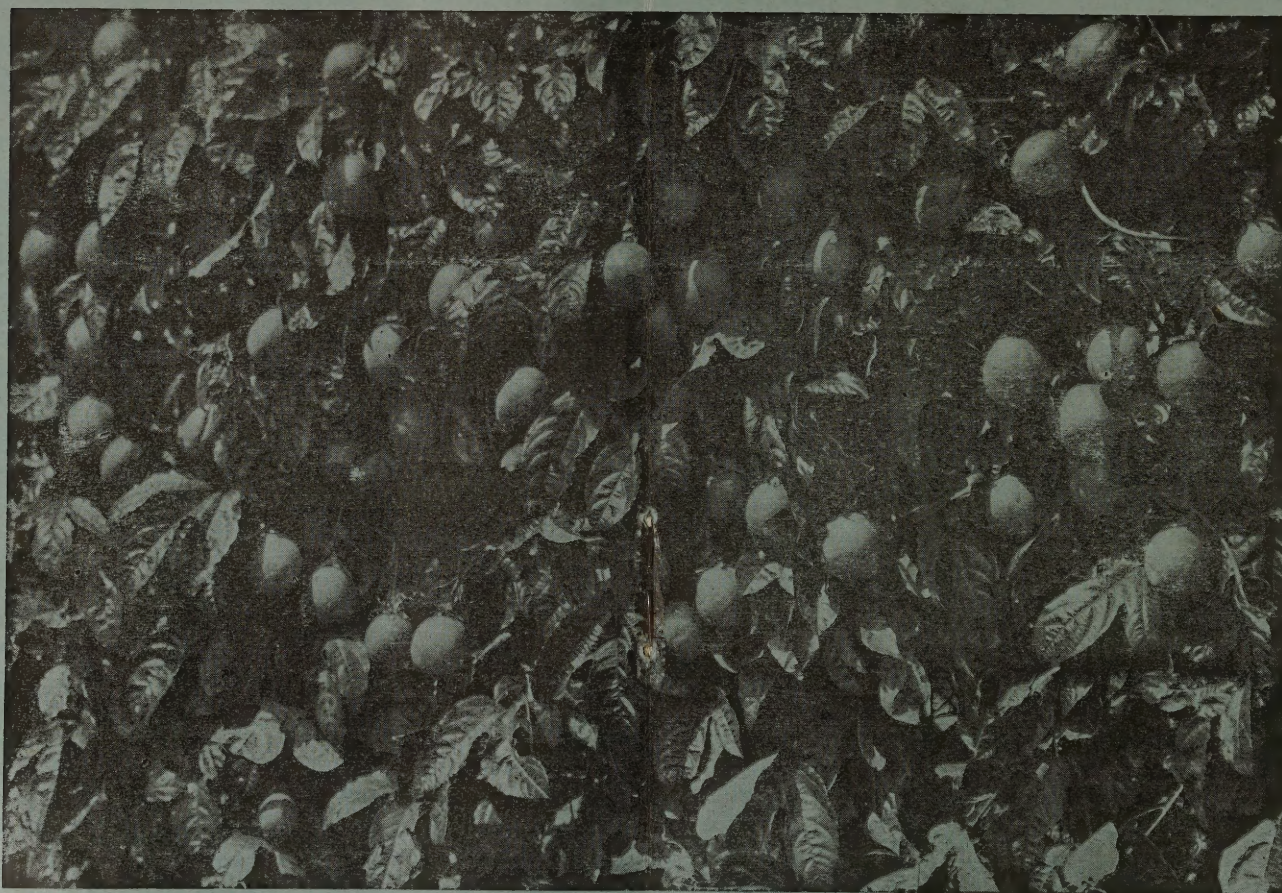

This plant is a hardy perennial, and exceptionally beautiful.

The plant is a very rare one. It is the finest dwarf creeper for the small garden ever offered.

Plants in pots, 2/ each.

The Old and the New Varieties. A Valuable Comparison.

Hackett's "Mammoth-Fruited" Passion Fruit.

A Two Year Old Plant in Crop.

For description see last page of Novelties.

TWO NEW GIANT-FLOWERED VERBENAS, "Glorious."

This new variety "Glorious" is the finest and best quality Verbena that has ever been offered in Australia.

The colour is indeed glorious, being a brilliant rosy scarlet with a white eye.

It is a remarkable variety in many respects. The single florets of well-grown flowers will cover a shilling, and the heads are remarkably large.

In addition to this the heads of bloom are conical, and very deep. We have measured some of those grown by us, and the heads were fully two and a half inches deep.

It is a remarkably strong, sturdy grower, and the heads of bloom are held upright on stiff, strong stems.

We have grown it for a year, and during the whole of the summer the plants have been just a mass of blossoms, and their fragrance was delightful.

Plants in pots, 1/ each.

"Lavender Beauty."

A magnificent new bedding Verbena, producing large heads of fine flowers which are borne in great profusion all over the plant.

The colour is a very beautiful, clear lavender blue, being one of the most charming shades for bedding, the colour being rather uncommon and giving a delightful effect.

In addition to its beauty this Verbena is very sweetly perfumed.

We have thoroughly tested this variety, and we now offer it as a splendid novelty. No seeds are available, and all plants are propagated from the original stock.

Plants in pots, 1/ each; 10/ per doz.

STATICE "SILVER CLOUD."

This plant is well named, as it produces magnificent heads of light feathery blossoms on long stems, the flowers being of a silvery pale lavender shade that on the plant give quite a cloud-like effect.

The sprays of blossom grow fully eighteen inches across, and there are few flowers grown that are so dainty and delightful for table decoration as this charming flower, and it has been in great demand by the florists for made-up work.

It is an exceedingly difficult plant to propagate, but we have fortunately been able to secure a good stock of plants.

It is a hardy, herbaceous perennial, and will grow in the same spot for many years.

The plants are dwarf, and of rosette form, and produce their numerous heads of flower from the centre of the plant from November on.

Plants in pots, 2/ each.

A BEAUTIFUL NEW BROOM, Genista Aetnensis.

(The Mount Etna Broom.)

There are few more popular shrubs than the Brooms on account of their hardiness, their profusion of flowers, and the value of the flowers when cut.

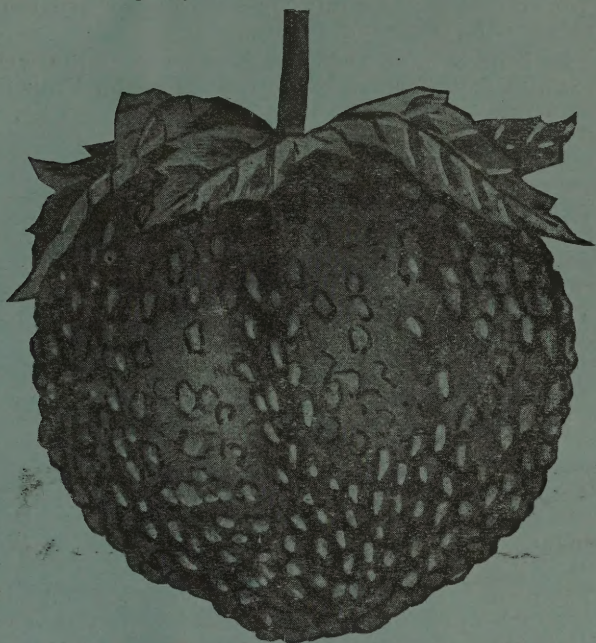

This new Broom is a beautiful weeping variety. It has tiny, scarcely noticeable leaves, but the slender string-like shoots are bright green, and are dense enough to give the plant the quality of an evergreen.

It commences to open its rich yellow flowers late in January, and for a considerable time it is not surpassed in grace and beauty by any hardy shrub.

It is very hardy, growing well in both the hills and on the plains.

This lovely Broom will prove itself one of the best shrubs for the suburban garden.

Plants in pots, 2/6 each.

HACKETT'S "NEW GIANT" STRAWBERRY.

A remarkable new Strawberry was referred to recently by a well-known fruit expert, as follows:

"Never had I seen such gigantic leaves on a Strawberry plant before. Every plant in the bed was alike. Taken singly, they looked more like Mulberry leaves, full grown, and lifting them up immense bunches of berries were disclosed. The berries themselves were very large, and the flesh red coloured throughout. I was assured that the bed had not been treated in any extraordinary manner, no liquid manure, nor even surface dustings." This is no light comment from one who made a specialty of this particular fruit, and grew all the best known varieties.

This Strawberry fills a decided want. It is a tremendously strong grower, having enormous foliage, which shelters the fruit from the sun, and also hides it from the birds. It fruits very early, and continues to fruit for fully three months, bearing the largest fruit we have yet seen.

The plants mentioned were grown on the plains, and it has also been proved to do well in the hills.

The 40 plants which were seen by the expert in November were only planted in May of the same year, and yet at that time were producing nine pounds of fruit in one week—a remarkable record for first year plants. Second year plants have given remarkable results, and a few plants secured this season will produce quite a fine stock for next season, as it is a variety that multiplies most readily.

Splendid reports have come to us from every State in reference to this grand Strawberry, and it seems to succeed well everywhere.

This is the finest and most satisfactory of all strawberries. The illustration shows the exact size of fruit picked from plants grown by us.

Price, 9d. each; 7/6 per dozen; 50/ per 100.

HACKETT'S "MAMMOTH FRUITED" PASSION FRUIT.

This wonderful variety we consider to be one of the most valuable introductions made for many years.

No other Passion Fruit has ever approached it in size, growth, crop, and quality.

The fruit is more than twice as large as the well known "Edulis," which is the usual Passion Fruit of commerce.

The new variety has been thoroughly tested for three years by the raiser, and for three seasons has been carefully watched by us.

It has given such magnificent results that we decided to purchase the entire stock and crop again last Autumn, and we offer it with every confidence as a grand variety.

The illustrations are truthful ones in every respect, and will demonstrate the wonderful fruit which this variety produces.

The smaller fruit shown were the finest fruit that we could obtain of the ordinary variety, and were picked out for us by Messrs. Ellis Ltd., the well-known fruiterers.

The large fruits were even samples from a large number of fruit secured from the plant shown in full crop in our picture, in which it will be noticed the fruit is practically all of one size.

The plant is a very much stronger grower and has very much finer foliage than the old variety. The fruit is the same colour, of immense size, and the contents are of exquisite flavour, the seeds and pulp being identical in appearance and flavour with that of the old variety, which we feel sure will now be discarded in favour of this wonderfully fine sort.

Plants in our own garden put in 14 months ago are now 10 ft. across, and are bearing a fine crop of enormous fruits.

Strong plants in pots ready for planting, 2/6 each, 6 for 14/-, 12 for 25/.

A. SPLENDID RHUBARB, Mould's Crimson Winter.

This variety which we are offering is undoubtedly the finest and best quality Rhubarb that has ever been offered.

It is a compact grower, producing a fine crop of solid stems, which are of a rich crimson colour.

In addition to the splendid habit of the plant, the appearance of the fruit when cooked is very pleasing, being a rich bright crimson.

The flavour of this variety is better than any Rhubarb we have ever tasted, it being very delicate and without the harshness that is usual with many sorts of Rhubarb.

It has been difficult to secure a quantity of this variety, as it does not seed, and every plant has to be propagated, which makes it a little more expensive than the ordinary varieties.

Where only a few plants are required for the home garden there is no Rhubarb to equal Mould's Crimson Winter, and we cannot recommend it too strongly.

We have a fine stock of plants this season, all of which are absolutely true.

Price, 2/6 each; 24/ per dozen. Not less than six sold at the dozen rate.

Dahlias—A fine collection, embracing Cactus, Show, Collarette, Pæony-flowered and Pompone, 1s. each. 10s. per doz.

Dielytra (or *Dicentra*) *Spectabilis* (Lady's Eardrop), "Bleeding Heart."—An extremely elegant plant, with graceful sprays of lovely pink flowers in the form of a heart, and graceful foliage. 2s. 6d. each in pots.

Freesia refracta alba (Odorata)—Pure white flowers, deliciously scented. The best, 6d. doz.; 3s. 100.

Freesia Hybrids—Many beautiful shades. 3d. each, 2s. 6d. doz.

Gloxinias—Greenhouse or stovehouse plants of great beauty. The most lovely combinations of colour are found in their large campanulate flowers, which stand about six inches above thick grand leaves of the finest silky or velvety texture. Seedlings to colour. 1s. 6d. each in pots.

Gloriosa superba (Climbing Glory Lily)—Orange and red. 2s. each.

Gladiolus—A splendid collection, including the best for exhibition purposes, from 5s. per doz.

Hemerocallis fulva, fl. pl. (Day Lily)—Bronze orange shading to crimson; fragrant. 1/6 each in pots.

Hippeastrums—Sorts, from 3s. 6d. each.

Hæmanthus tigrinus (Blood Flower)—Crimson. 1/6 each.

The *Hæmanthus* is remarkable both in flower and foliage.

Hyacinthus candicans (Cape Hyacinth)—The strong flower spikes rise to a height of 2 to 3 feet, bearing elegant, pure white, bell-shaped flowers; very beautiful. 6d. each.

HYACINTHS.

This is one of the most popular bulbous flowers in cultivation. They should be planted in March or April, in a deeply stirred, well manured border, 8 inches between the bulbs; put them down 3 inches deep, but the soil must be well prepared. They may also be grown in glasses or in pots.

Single, Named Varieties—White, Pink, Red, Yellow, 8d. to 1s. each; 7s. to 10s. doz.

Double, Named Varieties—Pink, Red, Pure White, Yellow, &c. 9d. to 1s. each; 8s. to 10s. doz.

Mixed Hyacinths—From 9d. each; 7/6 doz.

IXIAS.

A class of most beautiful bulbous flowers from the Cape, universally admired for their graceful and elegant style of growth and richness of colour. Charming in bouquets.

A large collection of named varieties, 3d. each; 2s. 6d. doz.; mixed, 1s. doz.; 6s. per 100.

Viridiflora—Beautiful green, black eye, very distinct and showy. 5s. doz.

Coccinea—Bright rosy crimson, 3d. each; 2s. 6d. doz.

IRIS (Fleur-de-Lis).

Iris German (*Iris Germanica*)—This, in its representative, the common Blue Flag of gardens, is well known; but, common as the blue one is, the family includes many other tints and colours, which constitute a variety the claims of which are too little known. It is very hardy, of easy culture, and adapted to almost any situation. The colours of the flowers are various, such as rich blue and purple, pure white, golden-yellow, rich brown, deep bronze, lilac, mauve, &c. Named varieties, 9d. each, 7/6 doz. Obtainable from March to July.

- Iris Spanish** (*Iris xiphium*)—Bulbous, very elegant dwarf species of rich colours, including blue, purple, copper, golden, &c. Very hardy; height about 2 ft. 2s. 6d. doz.
- Iris Susiana** (Chalcedonian Iris)—Very large flowers, with broad segments; bluish ground, tinted brown, densely netted with dark lines, giving it a deep bronze colour; most beautiful and remarkable. 2s. 6d. each in pots.
- Iris pavonia** (Peacock Iris)—This is a gem; slender stems about a foot high, producing pure white flowers with three bright blue spots, one on each petal. 3d. each, 2s. doz.
- Iris japonica** (*Fimbriata*)—Limb lilac, spotted with yellow and white at centre, standards plain lilac. 1s. 6d. each in pots.
- IRIS KÆMPFERI** (the Giant Japanese Iris)—1s. 6d. each; 15s. per dozen.
- Iris stylosa**—Fine foliage, loveliest blue, golden bands and blotches; very sweet-scented, winter flowering, 9d. each.
- Iris stylosa alba**—Large pure white flowers, winter flowering. 9d. each.
- Winter Flowering.
- JONQUILS** (Rush-leaved Narcissus)—These are of more slender growth than the other Narcissus. They flower early, and are very fragrant. Single, 1s. per dozen. Double, 1s. per dozen.
- Lachenalia quadricolor**—6d. each. Obtainable from January to April.
- Leucojum**—(See Snowflake).

LILIES.

- Lilium auratum** (The Golden-rayed Lily of Japan)—A magnificent species, growing from 3 to 5 ft. high, and bearing several very large flowers; ivory-white, dotted with chocolate, and a broad golden ribbon down the centre of each petal. 2s. 6d. each.
- Lilium candidum**—Snow white, the common White Lily, fragrant. The Madonna Lily of the Italians. The emblem of purity. 1s. each.
- Lilium eximium** (Christmas Lily)—Large white trumpet flower. 1/6 each.
- Lilium lancifolium album**—Pure alabaster white. 1s. 6d. each.
- Lilium lancifolium rubrum**—White, suffused with spotted crimson; free flowering. 1/6 each.
- Lilium trigrinum** (Tiger Lily)—Dark orange-red, spotted black, recurved. 1s. 6d. each.
- Lilium tigrinum fl. pl.** (Double Tiger Lily)—Immense flowers, deep scarlet, large black spots; magnificent. 1s. 6d. each.
- Lycoris radiata**—Crimson, 6d. each, 5/- dozen.
- Montbretia, Mixed**—A beautiful Summer flowering plant of the most brilliant colours, much used for cutting for bouquets, etc. The colours are rich and striking. The flowers are borne in branches and spikes 3 ft. high, with 15 to 16 flowers on a stem. 4s. dozen.
- Morphixia longiflora**—Buff colour, same habit as *Ixia*, but with long tubular flowers, blooms three weeks later. 3d. each; 2s. 6d. dozen.
- Nerine japonica** (*Lycoris radiata*, the Japanese Spider Lily)—Deep crimson. 6d. each; 5/- dozen.
- Nerine Fothergilli**—Bright vermillion. 1s. each.
- Nerine sarniensis** (Guernsey Lily)—Deep rose, gold-bespangled flowers, which are produced before the leaves, on stalks about a foot high. 1s.

Pancratium maritimum (The Sea Daffodil)—Grows about a foot high, and bears beautiful white, campanulate, sweet-scented flowers, 4 to 6 flowers on a stem. 1s. each in pots.

Polyanthus Narcissus (Tazetta or Bunch-flowered Narcissus).—These are commonly but erroneously called "Jonquils." The flowers of this species are produced in clusters at the top of the stalk. In various colours. 1s. to 1s. 6d. doz.

RANUNCULUS.

Ranunculus asiaticus—1s. dozen.

Persian Ranunculus—Mixed. 1s. 6d. dozen. In separate colours. 2s. 6d. dozen.

French Ranunculus—Mixed. 1s. 6d. dozen.

Double Turban Ranunculus—Pæony-formed flowers, larger than the Persian varieties, in several colours, to name. 2s. 6d. per dozen.

Turban varieties—Mixed, 1s. 6d. dozen.

Obtainable from January to June.

Richardia Elliottiana—Rich yellow. 1s. 6d.

Snowflake (Leucojum)—Quite hardy and exceedingly pretty, producing flowers like large Snowdrops, very graceful in growth. 6d. dozen; 3/6 100.

Snowflake, Giant (Leucojum pulchellum majus)—Flowers of immense size. 2s. dozen.

Snowdrop, Single (Galanthus nivalis)—Colonial grown. 1s. each.

Sparaxis—A genus of low-growing, large-flowered Ixia-like plants, of gorgeous colours and rich markings. They are very hardy, and do well in beds and borders. Obtainable from January till May. 1s. dozen.

Sprekelia formosissima—(See *Amaryllis Formosissima*).

Tigridia pavonia (Tiger Flower)—Petals scarlet, cup orange, spotted scarlet. A gorgeous flower of exceptional beauty. 6d. each; 4s. dozen.

Tigridia conchiflora—Petals rich yellow, cup yellow, spotted scarlet. 1s. each.

Obtainable from May to August.

Tritonias—Handsome and decorative. 1s. dozen.

Tulips—Double varieties, mixed, 6s. per dozen; Single varieties, mixed. 3s. per dozen.

Tuberose, Single (Polianthes tuberosa)—6d. each.

Tuberose, Double White (Pearl)—The finest. 6d. each.

These produce delightfully fragrant pure white, wax-like flowers in tall racemes; valuable for making bouquets, every pip being available. Dry roots obtainable from May to August.

Vallota purpurea (Scarborough Lily)—A magnificent Autumn-flowering bulb, producing Amaryllis-like flowers of the richest crimson scarlet. 1s. 6d. each in pots.

Watsonia O'Brieni alba—Pure white, most valuable for cutting. 2s. 6d. dozen; 3d. each.

Watsoni O'Brieni Pink Perfection—6d. each.

Gladiolus-like hardy bulbs of stately appearance. Flowers in early Summer.

BULBS NOT INCLUDED IN THIS LIST.

We shall be glad to have the names of any that may be required, and will endeavour to supply.

CARNATIONS.

A Good Collection of all the Best Varieties.

1s. each; 10s. dozen.

CHRYSANTHEMUMS.

Japanese, Chinese, Anemone-flowered, and Single.

All the best varieties suitable alike for exhibition or garden decoration.

Offshoots, 9d. each; 7s. 6d. dozen.

DAHLIAS.

Cactus, Pæony-flowered, Pompon, Show, Collarette. 1s. each; 10s. doz.

All the Best Varieties.

TREE DAHLIAS.

Imperialis—White, tinged rose, 1s. 6d. each

Leslie—Pink, changing to lilac. 1s. 6d.

Maximilliana—Heliotrope colour. 1s. 6d.

ERICAS (Cape Heaths).

1s. 6d. each.

A good collection of all the best varieties.

FUCHSIAS.

1s. 6d. each; 15s. dozen.

A fine collection of the best double and single varieties.

PELARGONIUMS.

REGAL (including Decorative).

1s. 6d. each.

Our stock of these is the most comprehensive in Australia, and the plants are perfectly clean and healthy. We list only the best varieties, and any older varieties not catalogued we will procure if obtainable.

When ordered by the dozen and the selection left to us, a reduction will be made in the price.

Our Pelargoniums for the last three years have secured all the first prizes at the Adelaide Show, and were freely admitted as amongst the best ever seen.

A Few Hints on the Treatment of These Plants.

Regal, Decorative, Show, and Fancy Pelargoniums are useful and beautiful for the garden, but more especially for the Glasshouse or Shadehouse. Amateurs frequently make the mistake in trying to keep them growing all the year round, and in consequence the plants are weakened, and but little bloom is obtained.

Directly they have ceased flowering, the plants should be placed out of doors to enable them to ripen their wood, giving them just sufficient water to keep them alive.

When the wood is well ripened (say about the beginning of February), the plants should be cut down, continuing to supply water sparingly for a time; and afterwards, only sufficient to keep them growing until they have fairly started, when they may be repotted into pots of a smaller size than those in which they have flowered.

About the middle of May, as the cold weather advances, they should be brought in doors, repotted from time to time, and thus be pushed on for Spring blooming. An abundance of air is very essential to their successful growth.

During October and November, when these plants are in full bloom, a visit to the Nursery will convince that we lead in Pelargoniums.

- Advance**—White, upper petals feathered crimson-lake, with a dark maroon spot in the centre
- Angus**—Delicate rose, upper petals blotched dark crimson, shaded bright rose; under petals spotted dark crimson
- Annie Hemsley**—Bright rosy crimson, tinted orange, pure white throat and margin, maroon blotch in upper petals; flowers and trusses of perfect form
- Black Prince**—Bright maroon ground colour, darker shading, and pale margin
- Champion**—Blush ground crimson blotch on upper petals, beautifully undulated
- Charles French**—Rosy pink upper petals flaked crimson, distinct white eye, extra large truss.
- Charles Outram**—White and deep purple blotch on each petal
- Cremorne**—Delicate salmon pink, upper petals blotched velvety crimson, nicely fringed, large bold trusses.
- Crimson King**—Intense crimson, very telling colour
- Decorator**—Red, with dark blotch, large and full
- Dorothy**—Soft carmine rose, centre white, surrounded with lilac shade, each petal margined white, and elegantly fringed; upper petals blotched maroon
- Duchess of Edinburgh**—White with purple blotch, beautifully fringed, large truss, dwarf habit
- Duchess of Sutherland**—Rosy lilac, large truss
- Duke of Connaught**—Dark purplish maroon, light centre
- Duke of Cornwall**—Reddish crimson, each petal bordered light salmon. Gigantic flowers of great substance
- Edward Perkins**—Bright orange-scarlet, maroon blotch in upper petals, immense size, beautifully fringed and undulated
- Earl of Hopetoun**—Deep crimson with white centre
- Emperor of Russia**—Dark maroon-crimson, elegantly marked with a pure white belt; very distinct and showy
- Empress of India**—Rich shade of salmon-claret, upper petals blotched dark crimson, light centre.
- Florrie**—Rosy purple, with distinct white eye, upper petals blotched maroon and crimson
- Garibaldi**—Upper petals crimson-scarlet, with a mulberry blotch; lower petals carmine-scarlet; white eye
- George Beckwith**—Large flowers, soft rosy crimson, upper petals heavily blotched maroon, distinct
- G. Shepherd**—Brilliant orange-crimson; large truss; a magnificent flower
- Her Majesty**—Extra fine; immense trusses of large, well-shaped, pure white flowers, beautifully undulated and fringed; almost double
- Incomparable**—Upper petals crimson, blotched maroon, lower petals blush white
- King Manuel**—Peach blossom pink on lower petals, with small crimson blotch, upper petals maroon and crimson, edged pink
- Lady Hutton**—Deep reddish-pink, margined white
- Lady Isabel**—Soft rosy lilac, deep maroon blotch in upper petals, slightly tinted in lower ones
- Lady Lawrence**—Soft blush-white, each petal blotched deep maroon and lake; large trusses
- Lady Stanley**—Pale blush ground, feathered maroon and crimson on upper petals, very large flowers and trusses, dwarf habit, a decided acquisition.
- Lady Sarah Wilson**—Deep rose pink ground, upper petals heavily blotched, blackish crimson, lower petals slightly blotched, white eye

- Lady Talbot**—Ground colour nearly white, maroon feathered blotch on upper petals
- Lord Kitchener**—Ground colour light rose, upper petals rich maroon, shading off to purple on outer edges.
- Lord Roberts**—Rosy-red tinted cerise, richly blotched on upper petals
- Madame Thibaut**—White, richly blotched and marbled with rose, upper petals marked with crimson-maroon, large white centre; immense trusses of very large flowers, with undulated petals
- Mars**—Delicate pink ground, upper petals blotched maroon and edged with orange, lower petals blotched with lilac
- Marie Augis**—Light rose-coloured ground, upper petals maculated scarlet and maroon, good dwarf habit
- Mrs. Beazby**—Blush ground, upper petals heavily veined red, fine bold flower, large truss. 2/6 each
- Market Favourite**—Upper petals fiery crimson, shaded dark maroon and edged pink, lower petals rosy pink, splendid habit, flowers early, one of the very best.
- Mrs. W. J. Godfrey**—Soft, rosy salmon, with blotches of dark maroon. Very large flower and truss.
- Mrs. R. Cheeseman**—Upper petals rosy pink, shaded dark crimson, lower petals deep rosy pink. A very fine variety.
- Nurse Cavell**—Lower petals satin rose, upper petals flaked and veined crimson, large maroon blotch, extra large flowers, immense truss.
- Persimmon**—Orange-scarlet, good substance and habit, extra fine truss.
- Pride of Devon**—White, blotched crimson
- Princess Alexandra**—Pure white, except for a faint colouring in the centre, crisped edges
- Prince Henry**—Bright fiery carmine, edged white, with light centre
- Purple Emperor**—Purple, upper petals blotched and feathered maroon
- Regalia**—Bright rose, light edges, upper petals delicately spotted with maroon
- Rose Queen**—Clear bright salmon, with a distinct maroon blotch on the upper petals, very beautiful.
- Royalty**—White, with crimson spot on each petal, beautifully fringed, good dwarf habit
- Servia**—White, upper petals slightly blotched maroon, large flowers and truss.
- Sir Alfred Milner**—Blush pink ground, shaded maroon on upper petals
- St. Visto**—Bright scarlet, white throat
- Sir Trevor Lawrence**—Fine large deep red and chestnut, upper petals blotched blackish maroon, clear white throat
- Triomphe de St. Mande (Improved)**—Reddish-maroon; very intense coloured blotch in the upper petals; most attractive
- Vera Cheeseman**—Bright salmon pink, upper petals veined dark red; a very fine variety with large flowers.

Advice gratuitously given upon all matters connected with gardening.

PELARGONIUMS.**SHOW OR LARGE-FLOWERED.**

- 1s. 6d. each.

- Azalea**—Bright crimson; large truss
Beacon—Rosy pink, shaded blackish-crimson
Conductor—Bright carmine, upper petals blotched with maroon; under petals shaded with crimson; white eye
Flag of Truce—White, with small claret spot on upper petals
Ixion—Rose, large dark blotch on upper petals. Surrounded with orange; white centre.
James Douglas—Lower petals cerise, large white eye, dark blotch in upper petals with orange margin.
Mabel—Dark maroon top, narrow edge; heavily painted
Mary Hoyle—Beautiful orange-rose, white centre; free and constant.
Outlaw—Top petals blackish-crimson, margined bright crimson; white centre.
Pluto—Lower petals soft rose, large white eye, dark blotch on upper petals; fine large flower.
Pericles—Large bold flower, lower petals French white, rich dark top
Pension—Rich deep crimson; upper petals marked with maroon; white centre
Rob Roy—Rosy purple lower petals, upper petals black with purple edge, clear white eye
Queen Bess—Lower petals lilac pink, upper petals maroon with mauve edge, white eye
Senior Wrangler—Upper petals maroon with cerise margin, pink markings on lower petals
 Other sorts not included in above can be supplied.

PELARGONIUMS.

FANCY, 1s. 6d. each.

The Best Varieties.

**PELARGONIUMS,
ZONALE.**

(Commonly, but Erroneously called Geraniums.)

For our hot, dry climate, Double and Single-flowered Zonale Pelargoniums are a very valuable class of plants; in fact, many of our gardens, especially in dry seasons, and where water is scarce, would look very bare indeed of flowers were it not for Zonale Pelargoniums. They stand the drought better than any other class of plants we know, for they grow and flower abundantly where many other plants would scarcely live. We have not listed the varieties, but have an up-to-date collection of all the best sorts. They also make ideal flowering pot plants for the verandah, shade and glass house.

Single and Double, 1s. each; 10s. dozen.

**PELARGONIUMS,
IVY-LEAVED.**

1s. each; 10s. dozen.

A Good Assortment.

GOLDEN TRICOLOR AND SILVER TRICOLOR PELARGONIUMS.

1s. 6d. each.

GOLDEN BRONZE AND SILVER BICOLOR PELARGONIUMS.

1s. 6d. each.

ROSES.

We have an exceptionally fine stock of Roses, all being well grown, and such as cannot fail to give entire satisfaction.

We have excluded from our Catalogue all varieties claiming no special merit, and have listed only the best varieties suitable either for exhibition or garden decoration. The object we have in view is to offer only the best varieties and those that we know will give satisfaction.

For varieties and description, see our special Rose Catalogue, which will be forwarded post free on application.

SEEDLINGS.

OF ANNUALS, BIENNIALS, AND PERENNIALS.

A Great Variety in Season.

HEDGE PLANTS.

HINTS ON GROWING HEDGES.

The first operation is to have the ground to receive the plants thoroughly loosened, say not less than two full spades deep. Then decide upon the ultimate height and width it is desired the hedge is to grow. If for instance you require it to be two feet in width, plant the plants half that distance from the fence so as to make an evenly balanced system of growth. The distance apart depends upon the variety being planted. A perusal of the list of hedge plants in this catalogue will furnish the correct distances they should be planted.

Whereas most hedge plants require to have the top as well as the front and back growth frequently clipped, to induce bushy formation and to fill up the space between the plants, on the other hand, there are two varieties which we list, that require different treatment at the outset, namely:—*Coprosma lucida* and *Cupressus Lambertiana horizontalis* (Horizontal Cypress).

These two varieties must be staked from the time of their being planted. The main stem (or leader) should be tied to the stake when planting, and allowed to grow to within six inches of the ultimate height of the hedge before it is topped. Furthermore the stakes should be put into the ground first, and the plants planted in front of them, otherwise there is a risk of driving the stake through the roots. The front and back growth can be clipped from time to time as required.

In all cases in Hedge plants, not less than six (6) at the dozen rate, and not less than fifty (50) at the hundred rate will be supplied.

- Carob** (*Ceratonia siliqua*)—This forms a magnificent evergreen hedge, and is very hardy. As it is strong growing it can be planted 5 feet apart. In pots, 15s. per doz.
- Ceanothus divaricatus**—When well clipped this makes one of the most ornamental hedges. It bears large quantities of blue flowers, which make it very effective. Plant 3 feet apart. In pots, 15s. per doz.
- Coprosma lucida**—This makes a splendid hedge; it is very hardy and quick growing; plant 2 feet apart. Plants in pots, 7/6 per doz.
- Cupressus Lambertiana horizontalis** (from cuttings)—This plant forms one of the most beautiful hedges in cultivation. It is very hardy and immune from disease. The main stem (or leader) of each plant should be tied to a stake when planting, and allowed to grow to within six inches of the ultimate height of the hedge before it is clipped. Plant 5 feet apart. In pots, 28s. to 42s. per doz.
- Cupressus macrocarpus**—This is suitable for a quick growing breakwind. In pots, 15s. per doz.
- Cupressus torulosus**—Makes a splendid shelter or ornamental hedge. When once established it requires very little trimming. Plant 3 feet apart. In pots, from 24s. per doz.
- Duranta Plumieri**—A neat growing ever-green plant, bearing clusters of purplish blue flowers, very fragrant. In pots, 12s. dozen.
- Escallonia macrantha**—A beautiful plant with dark glossy green foliage, bearing clusters of crimson flowers. In pots, 15s. per doz.
- Eugenia myrtifolia**—Glossy green leaves; makes a beautiful ornamental hedge, bears well clipping. In pots, 12s. per doz.
- Hawthorn** (White Thorn)—15s. per 100.
- Kaffir Apple** (*Aberia caffra*)—A wonderfully hardy, quick growing hedge plant, almost impenetrable when grown; bears clipping well, and will grow in almost any soil or locality. 20s. per 100.
- Laurel** (English)—Suitable for hedges in the hills districts, 12s. per doz.
- Laurustinus**—Where a small hedge is required this is very useful as it can be kept to a height of 4 feet. Plant 2 feet apart. In pots, 12s. per doz.
- Olives**—Slow, but a sure and substantial hedge, drought-resisting and ornamental, 15s. per 100.
- Pittosporum undulatum**—This makes a good breakwind or a fine hedge when kept well clipped, and can be kept to any height between 6 and 5 feet. 15s. per doz.; price per 100 on application.
- Pittosporum eugenoides**—Smaller than the preceding, and suitable for small hedges in cool districts. In pots, 15s per doz.
- Plumbago capensis**—This will make a very pretty hedge if kept well trimmed, and bearing (as it does) such quantities of blue flowers, makes it most desirable. In pots, 12s. per doz.
- Privet**—Evergreen. From open ground, 12s. per 100.
- Privet Golden**—From open ground, 15s. per 100.
- Rhamnus** (Buckthorn)—One of the best evergreen hedges; very hardy. 12s. 6d. per 100.
- Roses**—Monthly and mixed. Strong growing varieties, price on application
- Spartium junceum** (Yellow Broom)—Will make a fine ornamental hedge if kept well trimmed. In pots, 12s. per doz.

Tagasaste (Tree Lucerne)—Makes a quick-growing shelter fence, also useful for bees, 12s. 6d. per 100.

Tecoma capensis (Scarlet Tecoma)—Will make a fine hedge if kept well trimmed; also flowers very freely. In pots, 12s. per doz.

Willemetia capensis—A quick-growing plant, with small dark green foliage. 10s. per 100

Wormwood—Makes an excellent hedge. Its silvery foliage gives it a most distinct appearance, 9d. each; 7s. 6d. doz.

FRUIT TREES.

Hints to Intending Planters for the Home Garden.

Careful planting, regular cultivation, and proper pruning and spraying make for success in the life of every tree.

Time to Plant. Deciduous trees can be successfully planted from the beginning of June until the end of August, but in the drier parts the earlier the planting is done the better; whereas in cold, wet situations, late planting gives the best results. Citrus and other evergreen fruit trees are better planted when the ground is warm.

Treatment of Trees upon arrival from Nursery. If the ground for their reception is not ready upon arrival, it is advisable to heel them in the ground temporarily, that is, dig a hole and cover the roots and give a good watering.

Planting. Before planting, carefully examine the roots and remove all bruised pieces with a sharp knife or seccateurs.

The holes to receive the trees should be about 18 inches to 2 feet square, and should have the soil loosened to about the same depth, taking care to keep the top soil at the top. When planting, spread the roots out evenly, and do not place the trees any deeper than they originally stood in the nursery. After planting, and before filling in all the top soil, give each tree a good watering to ensure the soil being firm around the roots. More trees fail through not being properly watered when first planted than from any other cause. After planting, cut each deciduous tree well back (evenly), so as to eventually form a low-headed, evenly-balanced tree.

Do not leave the ordering of your requirements till late, but get in early and ask for your trees to be reserved and so secure good specimens.

When large numbers of Fruit Trees, etc., are required, we shall be pleased to send Special Quotations on application. Please state Varieties and number of each required.

The dozen rate is charged only where six (6) or more of any one variety in any distinct class are ordered.

Mrs. Dr. Chisholm	Very early and good; ripens in December	VE
New Boy	Large, creamy white, almost covered with brilliant crimson; flesh white; of best quality	M
Stanwick	Large, rich, freestone; skin greenish, with dull red cheek	L
Zealandia	A very large roundish Nectarine. Skin, light yellow, splashed with crimson; flesh, white juicy and melting; freestone ..	M

PEARS.

1s. 9d. each; 18s. per dozen.

	Description.	Season
Beurre Bosc	Large; skin yellow, nearly covered with light brown russet; flesh white, melting, buttery, rich and juicy, with a fine aroma	M
Beurre Clairgeau	Large, skin smooth, pale yellow, tinted orange-red on sunny side, and dotted with russet; flesh white, melting, and juicy	L
Clapp's Favourite	Medium to large; yellow with crimson cheek; flesh melting and buttery; first-class dessert	E
Doyenne d'Ete (Summer Doyenne)	Small, roundish, obovate; skin yellow, blushed red on sunny side and dotted; flesh white, melting juicy and sugary, with a rich flavour. One of the very best early Pears, should be gathered before it is ripe	VE
Duchess	See Williams'	
Duchess d'Angouleme	Very large. Noble looking, rich and melting	E
Durondeau	One of the finest dessert Pears; large, handsome, obtuse pyriform, highly coloured; skin pale yellow, thickly covered with cinnamon-russet, deeper on sunny side, sprinkled with brown dots; flesh white, very juicy, tender, melting, vinous with a rich sugary flavour. Tree vigorous, bears early, very productive. Suitable for export	M
Gansel's Bergamot	Above middle size, ovate, flattened at the crown; skin greenish-yellow and brown, tinged with red on sunny side, covered all over with dots of russet; flesh white, melting, buttery, juicy, sugary, and highly flavoured. An excellent Pear	L
Glou Morceau	Large, obovate; skin pale yellow, tinged with green, covered with grey russety specks; flesh whitish, tender, buttery, sugary, and richly flavoured	L
Jargonelle	Large, very early, and good	VE
Josephine des Malines	Middle size, round, skin yellowish, tinged red on sunny side and spotted with russet; flesh yellowish, slightly tinged with red; melting, juicy, and rich aromatic flavour	L
Kieffer's	Very large, golden-yellow, juicy, upright grower	M
L'Inconnue (Van Mons)	Medium size; round, skin yellowish, tinged red on sunny side, spotted with russet; flesh yellowish, slightly tinged red, melting, juicy, and rich, highly aromatic flavour	VL
Louise Bonne of Jersey	Middle size, skin smooth; pale yellow, bright red on sunny side, covered with dots of russet; flesh white, melting, buttery, sugary, and richly flavoured. A most delicious Pear	M

Madame Cole —A splendid late dessert variety	L
Packham's Triumph —A good dessert variety, ripening about the middle of April, and a valuable addition to the late Pears. Skin greenish-yellow, thickly dotted with minute grey dots and splashes of russet. Flesh greenish-white, melting, vinous, juicy, and pleasantly perfumed; flavour quite unique, a beautiful sugary flavour, yet sufficiently tart to prevent it becoming insipid. Mr. W. J. Allen, Fruit Expert, N.S.W. Dept. Agriculture, says it is "a triumph in pear culture." Tree vigorous, early, and heavy bearer	L
Pitmaston Duchess —Large, like its parent (Duchess d'Angouleme), but superior in quality. One of the largest melting Pears; excellent quality	M
Uvedale's St. Germain —An excellent stewing Pear; very large, sometimes weighing upwards of 3 lbs.	L
Vicar of Wingfield (Napoleon) —Large, pyriform, skin greenish-yellow, sometimes slightly tinged with red on the sunny side; flesh white, melting, juicy, and aromatic; one of the best late Pears	L
Wilder —Medium size, bell-shaped, pale yellow, with deep shading of brownish-carmine; flesh whitish-yellow, fine grained, tender, sub-acid; of good quality; productive	VE
Williams' (mostly known as Duchess)—Large, perfumed. A highly esteemed melting Pear; should be gathered before it is ripe	E
Winter Cole —Medium size, pale yellow and russet; flesh melting, exceedingly juicy, rich, and of exquisite flavour. One of the finest dessert Pears	L
Winter Nelis —Medium size; yellowish-green, covered with russet, a late dessert Pear of excellent quality	L

PLUMS.

1s. 9d. each; 18s. per dozen.

American Plum —Earliest, bright red; also known as Cherry Plum	D	E
Angelina Burdett —Large, round; dark purple covered with bloom; very rich, juicy, good; delicious if allowed to hang till it shrivels	D	M
Blue Rock —Large and very rich; one of the best early varieties	KD	E
Clyman —Large; dark purplish red; strong grower; very prolific	KD	E
Coe's Golden Drop —Very large, oval; yellow; juicy, sugary, rich, and excellent. One of the very best	KD	L
Coe's Late Red —Medium size, round; bright purple; firm, juicy, and sweet	K	VL
Diamond —Very large, oval; dark purple, excellent bearer; juicy, brisk, agreeable acidity. Excellent Plum for cooking or preserving	K	M
Early Orleans —An old favourite; round, medium size; purplish-red; tender, juicy, rich flavour	KD	E
Egg —A well-known favourite	K	M

Grand Duke —Very large purple; richly flavoured, very productive; considered the best late Plum	KD	L
Greengage —Medium size, round; yellowish-green; melting, very juicy and very rich, with a delicious flavour. A favourite Plum	D	M
Jefferson —Large, oval; yellow, spotted with red; firm, juicy, rich, and delicious	D	M
Kirk's —Large black; a fine variety	K	M
President —Very large, oval shaped, deep purple; sweet and rich; abundant bearer	KD	L
Pond's Seedling —Very large; beautiful red; juicy and brisk. One of the best; an excellent cooking Plum	K	L
Prince Engelbert —Very large, oval, delicious; very deep purple; with a remarkably dense bloom; firm, juicy, rich, and excellent; delicious when preserved; a profuse bearer	K	M
Prunus Pissardi —Purple-leaved Cherry Plum; bears earlier than the red Cherry; very ornamental tree for orchard or shrubbery. 1s. 6d. each	K	VE
Purple Gage —Medium, round, purple, rich; good bearer	K	M
Reine Claude de Bavay —Round; greenish-yellow; very large; melting, juicy, rich, and delicious	D	L
River's Early Prolific —Oval, purple; medium size; juicy and good; freestone	D	E
Tragedy —Large, oval; deep purple, with a heavy blue bloom; flesh yellowish, rich, and sugary	KD	E
Washington —Large, handsome, roundish; greenish-yellow	KD	M

PRUNES.

1s. 9d. each; 18s. per dozen.

Fellemborg or Italian Prune —Large, oval, deep purple, covered with bloom; flesh firm, rich, and sweet; excellent for preserving, and one of the best drying Plums	KD	M
French Prune (Prune d'Agen) —Purple. A very rich preserving Plum, valuable for drying	KD	M
Splendour —Resembles Prune d'Agen in shape and colour, but is much larger	KD	L
Sugar —Large, very rich and sugary; deep purple	KD	M
Tragedy —Very large; purple. One of the finest early Plums ever introduced; size and shape of Diamond Plum, but quite sweet	KD	E

DAMSONS.

1s. 9d. each; 18s. per dozen.

Blue Prolific —Medium size, round, good quality, amazingly prolific		M
Cole's Prolific —Very large for a Damson, having the true flavour		M
English —Small; fine for preserving	K	L
Farleigh —Larger than the common, dark purple, covered with bloom; makes excellent jam		L

JAPANESE PLUMS.

1s. 9d. each; 18s. per dozen.

- Burbank**—Large, round, red with lilac bloom; flesh yellow and very juicy, excellent flavour; vigorous, spreading, enormous cropper, one of the best M
- Climax**—Heart-shape, as large as Wickson, more highly coloured; delicious; very prolific VE
- Federation**—Cross between Burbank and Wickson; resembles Wickson; tree upright; free bearing; ripens middle of February M
- Formosa**—Colour red, shading from light to deep cherry, very sweet and rich; one of the best early varieties E
- Kelsey**—Fruit very large, roundish, greenish-yellow, faint red cheek; flesh firm and juicy, stone very small; heavy bearer L
- October Purple**—Fruit very large, purple, heart shaped, juicy, and sweet; most delicious flavour L
- Rubio**—Very large, oval crimson fruit, flesh deep crimson throughout, firm, fine quality . . . M
- Santa Rosa**—Very large fruit, deep purplish crimson; a heavy bearer E
- Satsuma (Blood)**—Largest size; dark red, mottled; flesh red, firm, juicy L
- Wickson**—Large; glowing carmine, with a heavy white bloom, stone very small; flesh of fine texture, sugary, and delicious . . . L
- Wright's Early**—An enormous cropper; bears while quite young; the fruit ripens first week in December VE

QUINCES.

1s. 9d. each; 18s. per dozen.

- Apple-shaped**—Medium to large, roundish; excellent stewing; good bearer
- Champion**—Very large, very late; will hang on trees till June
- Large Portugal**—Very large and good; deep rich crimson when stewed
- Master's Early**—Large and good; early
- Meech's Prolific**—Large; tree very vigorous and productive
- Missouri Mammoth**—Fruit of enormous size, unsurpassed for cooking; very early
- Pineapple**—Medium size; clear golden-yellow; good quality
- Rae's Mammoth**—Very large, round, smooth, heavy bearer; excellent
- Smyrna**—Very large; lemon-yellow; very good quality; ripens in April
- Van Dieman**—Very large; good quality; heavy and constant bearer; bakes well

JAPANESE PERSIMMONS.

This luscious and now much appreciated fruit, which ripens in May, June, and July, when fruit is scarce, thrives best in deep, rich, moist soil. The trees should be planted very firmly as deep as they have been in the nursery, and well watered. When established they are very hardy, and commence to bear quite young. Fruit should be stored in a dry, cool place. Should not be eaten until quite soft. The best varieties. 2s. 6d. each.

RHUBARB ROOTS.

Cherry—1s. each

Early Red—9d. each.

Early Albert—Early, very prolific, good flavour. 9d. each

Giant—A good market variety. 9d. each.

Mould's Crimson Winter—This variety varies from other Winter varieties. It has stouter and shorter stalks, which are of a bright crimson, their entire length. The flavour is far superior to other varieties. Though this is classed as a Winter Rhubarb, it can, with copious waterings during the dry months be used all the year round. 2s. 6d. each.

Topp's Winter—This extraordinary variety is in perfection during the Winter months, when other varieties are at rest; very prolific; stalks long crimson; fine flavour. 9d. each; 7s. 6d. doz.

Victoria—Very large Summer variety, 9d. each.

STRAWBERRIES.

1s. per dozen; 1s. 9d. for 25; 3s. 6d. for 50; 6s. per 100.

Abundance—As its name implies, this is a very prolific bearer as well as an early variety; very firm bright red fruit; a most vigorous grower.

Gandy—A large highly coloured berry of good quality; robust grower, and one of the first to ripen

Madame Melba (Up-to-the-mark)—Large, bright red, firm fruit, of excellent flavour; ripens a little earlier than Royal Sovereign. The foliage is dark green, and not liable to black spot. Heavy and continuous cropper

Marguerite—Very large, red; early, enormous cropper

Royal Sovereign—An earlier and improved Sir Joseph Paxton, of the largest size, and of glossy bright scarlet; the flesh firm and white, the flavour rich and vinous; quite equal to that of British Queen. A good bearer

Hackett's New Giant Strawberry—See Novelties (coloured pages).

GUAVAS.

These plants make very ornamental shrubs, as well as producing useful fruits. They do well in most soils, but prefer good deep soil. A delicious jelly is made from the fruit, that of the Purple variety being preferred.

Purple (*Psidium Cattleianum*)—Purple-crimson flesh, juicy, with a pleasant aroma, 1s. 6d. each.

Yellow (*Psidium aromaticum*)—1s. 6d. each.

WALNUTS.

From 2s. 6d. each.

MISCELLANEOUS FRUITS.

Arbutus unedo (Irish Strawberry Tree)—1s. 6d. each

Banana, Common (*Musa sapientum*)—3s. 6d. each

Berberry—1s. 6d. each.

Blackberry (Bramble)—1s. each.

Himalayan Blackberry—Very large, 1s. 6d.

Cape Gooseberry (*Physalis edulis*)—6d. each; 5s. doz.

Chestnut Spanish (*Castanea vesca*)—2s. each. each

Currant, Black—7s. 6d. dozen; 9d. each.

Currant, Red—7s. 6d. dozen; 9d. each.

Currant, White—7s. 6d. dozen; 9d. each.

Feijoa Sellowiana—A new fruiting shrub, growing 15 feet high, from South Brazil and Uruguay. 2s. each.

Filberts—1s. 6d. each

Hazel Nuts—1s. 6d. each

Passion Fruit (*Passiflora edulis*)—Very hardy and prolific. 1s. each

Passion Fruit, Hackett's Mammoth Fruited—See Novelties (coloured pages).

Logan Berry—1s. each.

Pomegranate (*Punica granatum*)—2s.

Raspberry, Fill-Basket—9d. each; 7s. 6d. doz.

Tree Tomato—1s. 6d. each
